XE-A212/XE-A202

Electronic Cash Register

XE-A212

XE-A202

THE EXPRESS LANE TO SMOOTH, ACCURATE OPERATIONS

Outstanding Features

- *Drop-in paper loading makes exchanging paper rolls quick and easy*
- *50 pre-programmed departments*
- *Electronic Journal stores transaction data in memory to save paper*
- *RS-232 interface for on-line capability*
- *Locking cash drawer with 5 bill and 8 coin compartments*

Speed, Accuracy and Performance for Your Small Business Establishment

The XE-A212, an ideal cash register for small restaurants and cafés, and the XE-A202 for small retail outlets, offer a wide array of features designed to make your business run smoothly. The new “drop-in” paper loading system ensures that your customers don’t have to wait long when the paper roll runs out, while the clear operator and customer displays help ensure the accuracy of each transaction. In addition, numerous convenient pricing features and an electronic journal are just some of the ways these cash registers can streamline your day-to-day operations.

Thermal Printer with Drop-in Paper Loading

Featuring thermal printing technology, the XE-A212/A202 silently print out sales receipts at a speedy rate of about 12 lines a second. Plus, a newly developed Drop-in Paper Loading mechanism allows you to exchange paper rolls quickly and easily.

Drop-in paper loading

Clear Display for User-Friendly Operation

The XE-A202 features a highly visible 1-line LED operator display that makes it easy to confirm the price being charged. The XE-A212’s 2-line LCD operator display shows up to 16 alphanumeric characters, allowing clerks to view the names of purchased items and other information in an easy-to-understand fashion. Both models are equipped with easy-to-read customer displays to ensure customer confidence.

Quick and Accurate Price Entry

Equipped with a maximum of 1,200 PLUs (price look-ups), the XE-A212/A202 make entering pricing information a snap. They also have a total of 50 department keys each, allowing you to easily track and analyse transactions by product type. The XE-A212 has a PLU Level Shift function that lets you assign 2 or 3 PLUs onto a single direct PLU key. This means you can double or triple the number of direct PLUs keys on the ECR without adding extra direct PLU keys. 50 GLUs (guest look-ups) are also provided to allow recall of previous balances and subsequent reorder entries for restaurant customers.

Electronic Journal

These ECRs feature an Electronic Journal function that can store transaction data electronically, thus helping to conserve paper and reduce costs. You can also call up and print out necessary data when needed.

High-Capacity Metal Cash Drawer

The XE-A212/A202’s space-efficient cash drawer takes up minimal counter space yet generously provides five bill compartments and eight coin compartments. When not in use, the ruggedly built drawer can be locked shut, keeping your money safe.

Other Key Features

- Logo printing (24 alphanumeric characters x 6 lines)
- 20 cashiers standard
- Tax (VAT) shift function (4 rates)
- Training function
- Prints out receipts in English, German, French or Spanish
- Flat, spill-proof keys (XE-A212)
